

16. The method of claim 13, wherein the adhesive binder is a surfactant.

17. The method of claim 13, wherein the adhesive binder is curable, and further comprising the step of curing the adhesive binder.

18. The method of claim 17, further wherein the step of curing the adhesive binder comprises heat curing and/or radiation curing.

19. The method of claim 13, wherein the adhesive binder comprises less than 30% by weight of the combined weight of the scattering particles and the adhesive binder.

20. The method of claim 13, wherein the light-scattering particles and adhesive binder combined form between 10% and 20% of the dispersion by weight.
